

THE BLAIRMORE ENTERPRISE

VOL. XV, NO. 7.

BLAIRMORE, ALBERTA, THURSDAY, FEBRUARY, 14, 1924.

\$2.00 YEARLY

G. W. V. A. DANCE AT

OPERA HOUSE FRIDAY NIGHT

Local members of the G. W. V. A. will hold a grand dance at the opera house tomorrow (Friday) night, and a good time is assured. Those intending to attend the dance can rest assured that the opera house will be warm and comfortable. Everyone is invited to attend.

Zero weather was experienced in Nova Scotia on Thursday last, while Blaimore citizens were sweating in the hot sunshine or meandering over the golf course in quest of cool air.

FIRST FINAL ON MONDAY NEXT

Blaimore and Bellevue enter the final playoffs next week and two hundred hockey games are assured. The first game will be played at Bellevue on Monday night, and the second takes place at Blaimore on Wednesday night. A professional referee is being engaged for both games.

H. Franz, of Cowley, was a visitor here on Saturday last and was the guest for a few minutes of Dr. R. K. Lillie, dentist. He says "A pleasant time was had."

MUNICIPAL ELECTION RESULTS

Monday's municipal election resulted in a very close contest between four candidates contesting three vacancies on the council.

One hundred and forty-four voters attended the poll, with the following result: Joseph Montalbetti 113, A. E. Ferguson 106, J. E. Gillis 90, W. J. Bartlett 90.

There being a tie between Messrs. Gillis and Bartlett, it became the unpleasant duty of the returning officer to choose one of two "evils", and following a careful recount on Tuesday morning the returning officer made his declaration in favor of Mr. Gillis. We congratulate Mr. Gillis upon his return to the aldermanic body and trust that he will remain along to serve well. Mr. Gillis served on the council several years ago.

The 1924 council will be: Mayor Archie McLeod, Councillors J. A. McDonald, J. E. Gillis, William Patterson, Joseph Montalbetti, Evan Morgan and A. E. Ferguson.

At the first regular meeting of the council in March, the reorganization will take place. The present council will complete their term of office on the night of Monday, February 25th.

COLEMAN PLAYING AT BELLEVUE TONIGHT

Two Coleman teams will be entertained at Bellevue tonight, the ladies' "Shamrocks" to meet the Bellevue "Maple Leafs" at 7.30 and the Coleman intermediate league team to meet the Bellevue team immediately afterwards in a league fixture.

Dr. Hardin, of Granum, charged with peddling dope and who made an escape from custody, was re-arrested at Vancouver last week, and brought back to Alberta by the R. C. M. P.

COUNCIL HOLDS BRIEF SESSION

A short session of the town council was held on Tuesday evening at 7 o'clock, present Mayor McLeod, Councillors Evan Morgan, J. Angus McDonald, W. Patterson, and Secretary Wright.

The minutes of last regular and of the regular and adjourned annual meetings of ratepayers were read and approved and the following accounts were passed for payment, subject to approval by committee: J. H. Dickenson \$7.35, Petty Cash \$11.60, A. Ferguson \$12.50, Blaimore Enterprise \$48.90, Workmen's Compensation Board \$47.20, C. Byers \$5.00, W. Byers \$5.00, R. Crayford \$44.50, Knapman Plumbing Co. \$57.98, West Canadian Collieries \$574.50, D. C. Drain \$12.00.

No business of importance appearing, the council adjourned at 8 p.m.

LOUIS OSWALD IS

TAKEN AT PORTLAND

Louis Oswald, former employee of W. D. Quimette, Coleman, who in September last made his disappearance from Coleman after having slashed his wife with a knife, was taken into custody at Portland on February 9th and was brought to Blaimore on Tuesday night of this week by Constable Cook, of the local detachment of the A.P.P.

Oswald, it is said, wrote to his wife, asking her to come and join him at Portland.

He will be charged with brutal assault or attempted murder.

He now occupies one of the cages in the local barracks, awaiting trial.

I. O. D. E. MEETING

All members of Crows' Nest Chapter, I. O. D. E., are urgently requested to attend a meeting on Monday evening next at 7.30, in the Greenhill Hotel. Very important business is to be discussed and a full attendance is requested.

DEATH OF MRS. AMANDA SNOW

The death occurred at Coleman yesterday morning of Mrs. Amanda Snow at the age of 8 years. Mrs. Snow was a native of Nova Scotia and came to Coleman last summer to join her husband, who has resided there for some time. Death was due to a dose of sulphuric acid taken by mistake for medicine about six weeks ago. She leaves a husband and family to mourn her loss. The funeral will be held on Sunday afternoon next.

MRS. L. H. PUTNAM IS AGAIN I. O. D. E. REGENT

At the regular meeting of Crows' Nest Chapter, I. O. D. E., held at the Greenhill hotel on Tuesday evening, the officers for the ensuing term were elected as follows:

Mrs. L. H. Putnam, re-elected regent.
Mrs. T. Hood, second vice-regent.
Mrs. H. Pinkney, hon. secretary (re-elected).
Mrs. A. Smith, treasurer (re-elected).
Mrs. H. C. James, educational secretary.
Mrs. Archer, Echo secretary.
Mrs. Gresham, standard bearer.

HOLMES-BELL WEDDINGS

A quiet wedding was performed at the home of Mr. and Mrs. Jarvi, State Street on Friday last, when Miss Ida Dagmar, only daughter of Mr. and Mrs. Harry Holmes, became the bride of Mr. Lester R. Bell.

Both bride and groom were former residents of Three Hills.

The happy couple left on the Saturday morning train for California, where they will make their future home, many friends wishing them farewell and bon voyage.

HOCKEY TREAT IN

TREAT FOR LOCAL FANS

With the recent cold snap, the hockey fans have resurrected their paraphernalia and arranged a big game for tomorrow (Friday) night with

Bellevue at the local arena. The game is scheduled for 8.30 sharp and a large turnout is expected. This is the game that should have been played on February the 1st.

(Continued)
From this time until the snow fell we had perfect harvest weather. But it came too late, the proceeds of our season's work being less than half of what we had counted upon. At that time we were more fortunate than many of our neighbors, for we were not in debt. All we owed was the small payment to Mr. Herrington, and although when it was made our bank balance was very small there was a balance on the right side and that was a great comfort. Mother had taught me a lesson of debt, the farm had taken so deep a hold on him that, like the pioneers who have made this and every other country, he was sure there were better days ahead.

Weeks afterwards I learned that Murray had written to our old Chief and to several other business men to ask if they had work for him, only to be told in every case that they had no ready cut their trade to the lowest possible point. I knew it was for my sake Murray had done this, for in spite of bad luck the farm had taken so deep a hold on him that, like the pioneers who have made this and every other country, he was sure there were better days ahead.

"If you are content to hold on for a while we'll come out all right in the end," he said after he had confessed to writing to the Chief. "But if you would rather we'll try to sell in the spring, times will surely be better then, and what we got for the place will be a clear gain." But when the spring, times will surely be better then, and what we got for the place will be a clear gain.

Of course I assured him that we would stay, that we had everything we needed to see us through the winter and that we should consider ourselves lucky to be so comfortably situated. And the expression rolled off that crossed his face was worth the little bit when I told him that I felt like a rat leaving a hole in the wall to be desert Herrington's hope now.

Real hardship we were not to experience. Once we decided that we should remain on the farm we took stock of our resources and made our plans very carefully. By the end of the year I could, I was sure, keep my grocery bills much lower than they had been. Our cellar was full of vegetables and preserves, and the fowl I had counted upon selling we would keep for our own use. The turkeys and geese, and these I had sold "by mail" to my old grocer in Winnipeg. Thanks to the new corn, became real in due time—while Nicolas wept and Rupert was keenly interested—and we had a side of veal with the Camerons for a side of pork. Before winter set in our good old Carrie had a little little calf, and it we kept, sharing the milk with the calf for the sake of its future value. Milk and butter, we had in plenty, and feed enough to last the cattle and horses until we could turn them out to pasture in the spring. Therefore our winter supplies would cost us only a fraction of what we had cost the year before, and we were not like the Fenwicks, who, we learned by accident, had been compelled to give David Wilson a chattel mortgage.

MRS. ANDERSON TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Leslie, Sask.—"For about a year I was troubled with a distressing drawing pain before and during the periods, and from terrible headaches and backache. I hated to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine, and I am now and hope to be able to keep my medicine on hand at all times, as no woman ought to be without it."—Mrs. OSCAR A. ANDERSON, Box 15, Leslie, Sask.

Mrs. Selkey Adheres Her Testimony
Copenhagen, N. Y.—"I read your advertisement in the papers and my husband induced me to take Lydia E. Pinkham's Vegetable Compound to get relief from pains and weakness. I was so weak that I could not walk at times. Now I can do my housework and help my husband out doors too. I am willing for you to publish this letter if you think it will help others."—Mrs. HANNAH SELKEY, R.F.D., Copenhagen, N. Y.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery.

Treasure On Cocos Island

Vancouver Party in Search for Sixty Million Dollars in Gold.

Captain Polkinghorne, a crew of Vancouver men and the little steamer, Gunner, are at Cocos Island seeking treasure. They left a short time ago to find sixty million dollars in gold.

Cocos Island, a morcel of land about 500 miles west of the Panama Canal, has for more than a hundred years been the scene of innumerable treasure expeditions. Captain Polkinghorne already has made two ventures without success, but he is full of confidence that this time he would win.

Cocos Island treasure is said to consist of gold plate and bullion, loaded on a British ship by the Chilean Government early in the nineteenth century, when it was feared the army of Peru or Bolivia would sweep in and conquer the land. The treasure so tempted the crew of the British ship that they seized the vessel when at sea, ran to Cocos Island and buried the gold with the pirate details.

The story of the treasure and its loss is given in the authentic records of the British museum. One man is supposed to have made known the secret of the burying place of the plate, and since then his directions (sketched) have been successfully hawked to scores of adventurers who were willing to take the chance.

The island has been literally turned over half a dozen times by these diggers.

Salt Stronger Than Steel

Interesting Discovery is Announced By a Russian Chemist

A Russian chemist announces a discovery that could prove true and practicable, will revolutionize the industrial world. He claims to have found a method of making wire stronger than steel out of common rock salt. This discovery is the result of a series of extraordinary experiments in the mutability of metals by structural chemistry. The scientist found that by submitting the rock salt to high heat pressure before the elementary crystals began to decay he arrested the decay by changing the structural arrangement of the atoms and molecules, and this change increased the durability and ductibility of the substance three hundred times. He is continuing his experiments with other metal substances. If this discovery can be applied to metals it will mean among other things, trains capable of running at two hundred miles an hour.

Loss From Frozen Milk

Precautions to be Taken in Handling Milk in Cold Weather

Much emphasis has been placed upon the handling of milk during warm weather. But little has been said about this task during the winter months. There is, however, a cold weather problem connected with this end of the dairy business. For instance, the delivering of frozen milk to a creamery is a losing proposition. The milk which adheres to the covers as the result of freezing, and also the floating ice particles, constitute a loss to the party selling such milk. Occasionally producers at warm place can supply the night's milk from freezing by storing in the warm place. In this effort, there is bound to be a continuous bacterial growth in the warm milk during the night. This frequently results in the milk becoming tainted. To maintain an even temperature just slightly above freezing is as important in winter as in the hot weather of July.

The Use of Narcotics

Tea and Coffee Said to Come Under This Category

The United States is the world's most neurotic country, with Britain a close second, said Dr. Walter E. Dixon, Cambridge University professor, in a lecture on "Drug Addicts" at the Royal Institution. Neurotics are easy to find in the streets, he asserted, adding that coffee and tea are drugs as well as alcohol.

"Anyone who smokes twenty cigarettes a day puts five per cent. of his blood out of play," Dr. Dixon opined.

Alberta Bound Shipped East

Calgary-produced lumber is being shipped to Battle Creek, Michigan, and as far east as New York. The logs are cut on the Ghost River, tributary of the Bow, and a cut of 5,000,000 feet is expected this winter.

"We got our Exercise at the Wood Pile"

IN the good old days when we were boys in the country there was no lack of exercise.

When other jobs ran out there was always wood to be cut and there is no denying that pushing the buck saw and swinging the axe are real exercise.

Rosy cheeks and sparkling eyes told of pure blood and an active liver. There was no lack of appetite those times and no complaints of indigestion.

For this reason it becomes absolutely necessary to resort to other means of keeping the liver active and the bowels regular.

Particularly in the cold season when we live so much indoors with too little pure air to breathe and too much artificial food to eat, do we require the use of medicine to regulate the vital organs.

DISHONESTY

Did you ever really hear in your heart and believe in your very soul that "An honest man's the noblest work of God?"

What is honesty? It is the quality of your character that always rings true.

You can always tell when a bell has a crack in it. It does not ring true. And you can tell when a girl or boy has a crack somewhere in his character. He or she does not give a clear ringing sound. One of the worst kind of cracks is dishonesty.

You can't trust that kind of person. He always has to be watched.

What a horrid kind of child that is, from whom you dare never take your eyes!

But when you see a "real honest girl or boy, how you admire the sight. They will not cheat. They play fair. They are true sports. They won't take advantage of you when you are back to them.

You know how even in school games you like a real sport, who plays the game and obeys the rules of the game. You can't have a game with any other kind. He spoils everything and you can't have real life with a cheat. He spoils the school and disgraces a home.

More than that, an honest person will not take what does not belong to them. A lot of girls and boys forget the difference between "mine" and "thine."

When they grow up they spoil society, and if they go far enough, they become that awful thing, "a thief."

An honest girl and boy is one with honour bright.

A looking-glass always shows when it is polished bright.

A pool of water is very beautiful when you can see down into it and see clear through it.

And so is a boy and girl who has no mud in the eye or in the soul.

It is simply great to be a life on the square, above board, with nothing to conceal; what is called transparency, that the light shines throughout, with no pretending to be what it is not; no scampering work and trying to get things without paying for them. You can't anyhow!—You always get in the end what you pay for.

Did you ever hear someone described as "four square"—standing true, upright, facing everywhere with a clear eye and an undimmed soul?

It is a fine thing to have a life with no spots in it, and one of the very worst spots is to be false and dishonest.

And it always comes home some day—A wonderful book called "Silas Marner" tells of a young man who stole the money that old Silas had gathered and kept under the boards of his cottage floor.

For many years no one ever knew where it went.

It nearly broke the heart of Silas, only in hunting for it, he found the golden curls of a little child who helped to save him and make a good man of him.

Nearly was an old pit, full of water, and some years later in draining of the water, they found a skeleton was a bag of gold beside him. It was the bones of the young fellow who stole it, and who had fallen in, years before, and been drowned.

But there at last, it was all seen, and who had fallen in, years before, and been drowned.

And dishonesty does come out, and even in the dishonest act is never known in itself, it comes out in the life that has lost its truth and beauty and grown mean and unworthy, so that nobody believes in it.

It leaves a bad black stain wherever it goes, and it is dishonest.

Therefore, dear girls and boys, be honest.

"For you, little laddie, be true. From your cup to the top of your shoe."

She Is Thankful She Started Taking Them

Saskatchewan Woman Tells of the Good Health Dodd's Kidney Pills Brought Her.

They made a new woman of Mrs. J. Kozakewich, who had had three operations and was not quite well.

Hubbard, Sask. (Special).—"I have been in hospital, full after full, for three years. One month each time I have suffered for about five years with backache, dizziness and headaches. I used to get dizzy and short of breath and was very nervous.

"I started to use Dodd's Kidney Pills and they have helped me a great deal. I am thankful I started taking them and will always keep some on hand."

This statement is made by Mrs. J. Kozakewich, well-known and highly respected resident here. All Mrs. Kozakewich's troubles came from diseased kidneys. They steadily became worse when she commenced to use the sure help for diseased kidneys—Dodd's Kidney Pills. They are used to treat rheumatism, dropsy, backache, diabetes and heart disease, because all these diseases are either of the kidneys or caused by diseased kidneys.

Alberta Butter Records
Alberta butter won 50 per cent. of all the prizes offered at twelve exhibitions in Canada during the past year.

According to a report prepared by the provincial dairy commissioners, of the all first prizes offered at these exhibitions Alberta won 623 per cent.

A cynic is one who thinks you can't be somebody in this life without learning how to do somebody.

W. J. BAUTLETT, PUBLISHER

Blairmore, Alta., Thurs., Feb. 14, 1924

Commissioner Henry C. Hodder, territorial leader for the Salvation Army in western Canada, with headquarters at Winnipeg, will visit Coleman on Wednesday next, February 20th. This is the first visit of the Commissioner to Coleman and he will be accompanied by Mrs. Hodder and his private secretary, Ensign T. Munday, and Staff Capt. Penfold, the divisional commander for Southern Alberta. The Commissioner has been in service in many parts of the world, having had command of the Army's work in Holland, Japan and New Zealand. Mrs. Hodder recently celebrated her fiftieth anniversary of Salvation Army service. The Commissioner will conduct a meeting in the Institutional church at 8 p.m. on Wednesday and a hearty invitation is extended to all to attend this gathering, as with the very wide experience of Commissioner Hodder, it will be most interesting. He had the Order of the British Empire conferred upon him for services rendered during the late war.

UNFAIR BUSINESS METHODS

Considerable agitation has been heard against the Dominion Government owing to the fact that the luxury tax, imposed on cars, was repealed suddenly, and the amount of the tax refunded to the manufacturers and to other trades who had paid it on cars not sold at the time of the repeal. The government refused to refund the tax to the retailers. There is absolutely nothing fair about such methods.—Brooks Bulletin.

BLAIRMORE TEAMS LETHBRIDGE TWICE

The local hockey team journeyed to Lethbridge last Saturday and in a game that went 30 minutes overtime, came out on top with 5 goals to 4. The game was pretty rough in spots and was accompanied by Lethbridge's usual tactics of letting the spectators and police ruin the sporting spirit of hockey by rushing on the ice.

Lethbridge came up on Monday determined on revenge, but were outplayed by the locals, who won the game by 6 to 3. The first period ended 4-0 in the locals' favor and no scoring was done in the second period. The last period was fast and Lethbridge netted three goals to Blairmore's two. Walter Scott handled the ball to the satisfaction of all. By virtue of these two wins, Blairmore leads the second section and now has the right to play with Bellevue for the honors of the Crow League.

WANTS A CHURCH JOB

Blairmore, Alberta,
February 11th, 1924.

Dere Edditor:
Good yew tel me if it is trew that all the stool pigans are to gett good jobs in the church, as soon as there jobs is dun stool piganing if that is the case, I wood like to jine this nobel army and I am suer I cood preach as good a sermint as enny off them. Thay tole me that Mr. Bishope had promist all the men that wurked fur him a jobe in the church, and I think it is as littl as he can doo, for thay made it possibul fur hym to hold down a good jobe such a long time. If I got a jobe in the church my first text wood be "And Judas went out and thankt himself." Hopien yew kin tel me about this.

Yewers truly,
JOE TROVATOR.

A CRIMINAL HEN

The only hen ever arrested and locked all night in a cell for larceny won a notable legal victory in Chelsea Court, Boston, December 4. She is now as free as a hen can be. She gave a laugh to the police with a raucous cackle as her cell door swung open, and she fluttered her prize wing feathers and tossed her blue-ribboned head. The bird, a blue Orpington, was arrested at a poultry show in Congress Hall, Chelsea. While George Hennessey, a North Market poultryman was standing near she reached out picked the diamond from his ring and swallowed it. John Strom, of Somerville, the owner, refused to let Hennessey cut the bird's crop and refused \$25 for the hen, so to settle things for the night, Lloyd Chase, show manager, called a copper and had the bird arrested. Like an ordinary customer, she was entered on the police blotter and locked in a cell. The problem is unsettled in spite of her release. Show Manager Chase on Saturday must choose between returning the bird to its owner with the diamond in her gizzard or handing Hennessey this uniquely set stone even if the hen dies in the process of recovering it. The diamond is worth \$250. The hen, says Stone, is priceless, and he has already refused \$100 for her.

WILL BE DAMMED!

With a present expenditure of more than \$2,000,000 for water supply purposes alone, the Canadian National Railways are now planning the construction of a dam near Regina to cost \$250,000. This reservoir will hold 400 million gallons of water for use in locomotive boilers.

HILLCREST MINER MEETS DEATH

Through a fall of rock in one of the workings of Hillcrest mine, a miner named Steve Thomas met instant death on Thursday afternoon last. The section of rock that fell on him measured about thirty-five feet in length. Thomas is survived by a wife and daughter residing at Lethbridge. The remains were taken to Lethbridge on Saturday night, where interment took place on Tuesday afternoon.

W. A. DAVIDSON HURT AT ROSSDALE MINE

Word comes from Rosedale mine, in the Drumheller district, that Mr. W. A. Davidson was seriously injured at the Rosedale Company's plant on Tuesday, when he was struck by a loaded mine car on the tippie, sustaining a broken collar bone, several broken ribs, a fracture of the pelvis and a fractured right leg. He was in too serious a condition to be removed to Calgary and was being attended in the Drumheller hospital by Dr. Brogren. It appears that Mr. Davidson was on the incline of the tippie when the loaded car at the top was released. This struck him with great force, dragging him to the bottom of the incline. Doctors are of the opinion that there is a chance for recovery.

Mr. Davidson is well known in this district, having for a number of years served with the International Coal & Coke Company, at Coleman, as master mechanic and general superintendent. He was a man of wide experience and exceptional ability. A few years ago Mr. Davidson's services were secured in connection with the programme of technical instruction in the province, which position he recently relinquished.

It seems that the daily papers of this province are never satisfied unless in some way they can connect all crimes to Blairmore. Recently the man Oswald was referred to as having committed a crime in Blairmore and making his getaway from Blairmore, while Oswald never resided here, but at Coleman, where he worked with a mercantile firm and where his family resided.

NEW LUNDBRECK HALL TO BE OFFICIALLY OPENED

The official opening of the new Community Hall at Lundbreck will be celebrated by a grand dance on the night of Friday, February the 29th. The ladies and gentlemen in charge of arrangements are leaving nothing undone that might lend towards the success of the occasion and a right merry time is in store for all who can attend.

The new hall is just about completed and is indeed a valuable addition to the settlement. The building is large and well arranged, and will serve a long-felt want for the accommodation of social functions.

THREE YEAR CONTRACT AT THE PRESENT RATE FOR MINERS?

Jacksonville, Feb. 12.—Reduced from 63 to 21 members, the miners' and operators' joint committee empowered to draft a tentative wage agreement for bituminous miners of the central competitive district, went into an executive session here this morning with preliminaries disposed of and the table cleared for action. The majority sentiment among operators was said to be in favor of yielding to the miners' demands that the present wage contract be renewed but that none favored signing for four years at the miners' request. A majority of operators, it was declared, would favor a long term of three years or would sign for one year.

HILLCREST HAPPENINGS

A. H. Ryan and Bob Smith are now in partnership in the dry and livery business.

A slight improvement is reported in the condition of W. White, barber, who is having a long spell of sickness.

Mr. and Mrs. Lesson and family returned on Wednesday, after attending the funeral of the late Steve Thomas at Lethbridge.

The regular convention of Pythian Sisters was held in the Castle hall on Friday evening, when degrees were conferred upon several candidates.

The remains of the late Steve Thomas, who lost his life whilst at work in Hillcrest mine on the 7th instant, were laid to rest at Lethbridge on Tuesday.

An occasional dog hunt around Hillcrest would not do any harm. There are many unclaimed mongrels that are fast becoming a pest, especially on Main Street. Will the school board consider the advisability of imposing a tax on these canines and thus help to clear them out.

About thirty members of the K. of P. lodge journeyed to Coleman on Saturday, the 9th, to pay a fraternal visit to Sentinel Lodge No. 25, and after having a whole of a time arrived home at the sound of 2 a.m. The roaring lions, tigers and elephants, and every other creeping thing will be at Lethbridge on March 3rd.

The dance given in the Union hall on Monday night for the benefit of Mr. A. Scrovan, who was hurt while playing hockey some time ago, was well attended, and a very substantial sum was raised and handed over. Music was supplied by the Hillcrest Five-Piece Orchestra. This orchestra is supplying music for the dance at Lundbreck on the occasion of the opening of the new community hall.

Nurse Sadie Bonnar is among the Albertans who are taking the trip around the world. Nurse Bonnar sailed on the "Canada" from San Francisco on Saturday, February 2nd.—Lethbridge Herald.

All the stills in this province should be allowed to operate for the next few weeks, if only they could brew hockey weather.

Macleod will stage a pageant to commemorate the fiftieth anniversary of the establishment there of the barracks of the Royal North West Mounted Police, which occurs this year.

Ford Resources

The Ford is the product of a self-made institution which, over a period of years, has provided dependable transportation for all peoples.

Recognizing the value of Ford transportation, these peoples have purchased Ford products in such volume that the sale of Ford cars and trucks equals the sales of all other makes combined.

As a result, the resources of Ford of Canada are now over \$20,000,000. These resources mean

ability to buy the best material at a minimum price.

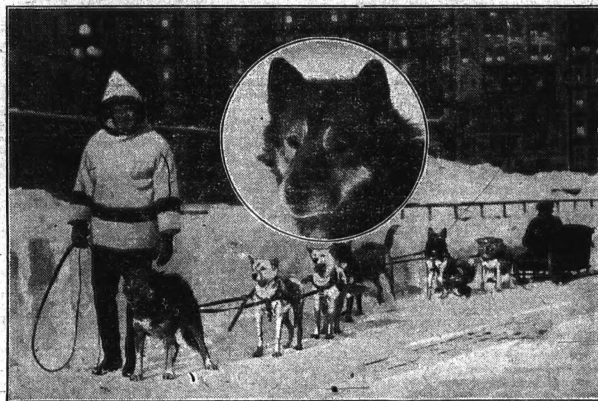

They mean the ability to organize each process of production, from the purchase of materials to the completion of the finished car, on such a basis that every non-essential operation is eliminated. The economies thus accomplished are reflected in Ford prices which, always consistently low, are now the lowest in history. This is what Ford resources mean to you.

Chateau Frontenac Team Leader's Long Journey

Mountie, veteran husky, leading the team, outside Chateau Frontenac. Inset, Mountie.

A breath from the freezing winds of the Canadian Arctic, with something of its loneliness, its savagery, its call upon the elemental qualities of courage and endurance and a dash of the romance of the long-trails are embodied in Mountie, veteran hero of the wilderness and new leader of the Chateau Frontenac dog-team at Quebec.

Mountie is a husky, in other words, part wolf and his wolf strain shows itself in his handsome head, with its sharp ears and nose, its steel-hard, flaming eyes, its gleaming fangs and its great ruff of fur. He is a dark grey giant, almost one hundred weight of muscle, bone and sinew, ferocity, grim determination and unswerving fidelity. He was born away up within the Arctic Circle, at Lac-du-Brochet, bought in 1918, when very young, by

Sergeant Grennan of the Royal Canadian Mounted Police, and trained by him. He put in nearly five years as a member of that famous force, ryming patrols on His Majesty's Service with the red-coated heroes of the waste.

The journey from Le Pas, in Northern Manitoba, where he was purchased, to Quebec, a distance of well over two thousand miles, was an exciting and extraordinary experience for Mountie. He spent Christmas Day at Winnipeg, where the kind-hearted officials of the Canadian Pacific offered him seasonal fare, which he did not like much, except as a desert following a meal of his accustomed fish and biscuits. He made friends with the baggage men who were more than sorry to part with him. At Montreal, he had a day's

rest and there adjusted himself comparatively easily to the strange turmoil of the great city. His driver, Arthur Beauvais, an Indian from Caughnawaga, took him for a short stroll through the streets, where he created a tremendous sensation. And no wonder, for Beauvais says he is without exception the finest husky he has ever seen, while the Mounted Police report that he has always been greatly admired wherever he has been, both for his appearance and his capacities.

Now he is at the Chateau Frontenac, working comparatively easily at giving visitors a ride and is one of the big attractions of winter-time Quebec and, will no doubt share brilliantly at the forthcoming carnival there.

W. L. Oulmette, prominent Coleman merchant, was a visitor to this metropolis today.

Otokots citizens glory in the fumes of gas. Cranbrook goes one better and establishes a skunk farm.

A grand concert and dance will be given in the Union hall at Hillcrest tomorrow (Friday) night.

A change is taking place this week end in the management of the Blairmore Rooms, over the drug store.

The Fred Carmelo vaudeville company appeared at the opera house on Saturday night last.

Sunday, March 23rd, is the date set for the anniversary services at the Union church. Rev. Thomas Powell will be the speaker.

Miss Katherine Gibeau is in Galt Hospital at Lethbridge, where on Tuesday of last week she underwent a critical operation.

Blairmore has entertained during the past few weeks several impersonations of the real "skunk." When the suggestion was made that they may be purchased from the government as a nucleus for a skunk farm, a clever individual remarked that they were too low a breed to qualify.

The Third Degree was conferred upon a class of three candidates at the regular meeting of Blairmore Lodge 68, I.O.O.F., on Tuesday night. Refreshments were served after the meeting.

Four minnows lost their lives when the roof of N. 4 colliery at Inverness, Nova Scotia, caved in. One of the men, Dan McDougall, 62, is survived by a widow and two children; two brothers, Dan McEneaney, 50, and Archie McEneaney, 28, leave a wife and two children each; the fourth, Neil McEneaney, 45, leaves a wife and seven children.

Ratepayers of Coleman will shortly be called upon to vote upon an agreement or franchise between the Town of Coleman and the International Coal & Coke Co., for the purpose of supplying water and electric current for a period covering at least ten years.

The jury returned a true bill against Wilhelm Hansen, charged with murdering Edgar Faulkner at Sylvan Lake in November last. The trial lasted two days and the jury deliberated for several hours. Hansen has been sentenced to hang at Fort Saskatchewan on Thursday, May 1st.

A settlement has been reached in the dispute between the British Empire Steel Corporation and the Nova Scotia mine workers.

Tomorrow night, Friday, February 16th, the boys will entertain their fathers at a banquet at the Greenhill Grill.

Twenty-three persons were injured when the transcontinental Canadian National passenger train went thru a bridge east of Chilliwack on February 11th.

Rev. William Mercer, for some years stationed at Fischer Creek, but who later had been doing missionary work along the coasts of Labrador

and Newfoundland, perished in a blizzard while on his way to an appointment in Newfoundland. Mr. Mercer's parents are residing in Fischer Creek, and the news came as a great shock to them. In 1922 he paid a visit to Fischer Creek and his marriage to Miss Langley, a teacher of the high school, took place at the end of the summer holiday season.

An applicant for honors (?) in the police force, was appearing before the inspector for examination, and one of the questions which were asked of him was: "Do you know anything of police methods?" The answer vouchsafed to this was, "I should, as I have been often enough in their own fig-tree, none daring do make him afraid."

ed on the assumption that it takes a thief to catch a thief.

How is this for the meanest Scotchman story? A resident of Coleman (Galedonian, of course) recently put up a new clothes line and he purchased barbed wire for the job. When he was asked the reason why, he replied that he did not want the birds to be sitting on it and wearing it out.

With the new Moderation Act looming closer, an air of gloom seems to be dispelling, and the disciples of Bacchus are looking forward to the time when every man will be able to have one under his own vine and his own fig-tree, none daring do make him afraid.

Canadian Immigration

The twin subjects of emigration and immigration are much in the limelight at the present time the world over, and parliaments, newspapers, magazines and organizations of many kinds are closely studying the problems involved, with the result that varying policies are being offered and suggestions innumerable advanced.

Old world countries with surplus populations and restricted areas and means of providing employment for their ever increasing numbers are anxious to find new homes overseas for these people where living conditions will be better and chances for success in life increased. Insofar as the British Isles are concerned, coupled with this is the hope, amounting almost to a determination, that these British subjects shall remain British through emigration to the overseas dominions, thus adding to the strength and prosperity of the Empire at large. The British Government is prepared to assist such movement of population to the full extent of its resources.

The problem now confronting the United States is one of limitation of immigration and selection of immigrants.

The overseas British Dominions, on the other hand, including Canada, Australia, New Zealand, South Africa, with sparse populations and vast unoccupied areas fit for settlement, require large additions to their populations. Their continued development and prosperity are contingent upon a large immigration of both people and capital. And these Dominions are fully in accord with the British Government in a desire that English-speaking British subjects predominate in order that British traditions, ideals and systems of government may prevail.

The problem then is how to effect the transfer of people from the British Isles to, say Canada, under conditions which will assure their success in this country, thereby making them an asset to Canada and not a liability.

The problem, however, is not as simple as it would appear to be, but is in reality quite complex. Canada requires men and women capable and willing of facing the hardships inseparable from the life of pioneers. This country wants people to go on the land, and to engage in hard tasks of development of which will make success for the new settler and advancement for Canada. A large percentage of Great Britain's surplus population is found in the large industrial centers, and by training and physique these people are not adaptable to our conditions, and all too frequently quite incapable of becoming so. To transfer these numbers to Canada would be a tragedy for them as individuals and harmful to this Dominion. There must, therefore, be selection.

There are, however, certain pressing requirements to be met in Canada, and anyone who can offer suggestions and a workable policy as to how the needs of both Britain and Canada are to be met is rendering invaluable service to the Empire. And of the proposals so advanced those contained in a recent address by Sir Clifford Sifton before the Canadian Club of Winnipeg are deserving of serious consideration.

It must be recognized that, although mistakes were made by him, Sir Clifford was the most energetic and successful Minister of Immigration Canada has yet produced. Under his administration more people were brought to Canada, more new territory opened up and developed, more material progress recorded, and greater prosperity enjoyed than at any time either before or since his tenure of office at Ottawa. Mistakes, we repeat, were made and from some of these have grown problems still demanding attention, but the benefits accruing to Canada, and particularly to the West, far outweigh the disadvantages. On the subject of immigration, therefore, Sir Clifford can speak with authority, and his views should, and will, carry weight and influence.

Sir Clifford Sifton is of such a nature that even proper selection of immigrants, and their suitable location after arrival in Canada, will not in themselves be sufficient to ensure success. Conditions essential to success must likewise receive consideration, and remedies applied where existing conditions do not make for success. Among the matters requiring specific action by the Government of Canada enumerated by Sir Clifford are problems of marketing, notably lake freight rates on grain; ocean rates on cattle from Montreal to British ports; a strengthening of the Canadian Bank Act and banking system which will provide needed security to the public, and greater facilities for currency and loans in times of emergency and financial stress; greater economy in public administration leading to a lessening of taxation.

An outline of Sir Clifford Sifton's proposals and consideration of the same will be reserved for future articles.

Vancouver Harbor Record
Vancouver harbor created a new record for deep sea shipping in port on January 12th. There were 34 deep sea vessels at anchor at wharves, loading for all parts of the world. The previous record was 23 ships.

Fear of old age comes only to those who have not learned how to live.

U.S. Tax Collections

An average of \$68.37 for every man, woman and child in the United States was collected in taxes in 1922 by the national, state, county and city governments and all other civil divisions having power to levy and collect taxes. Taxes collected in that year amounted to \$7,429,041,000, according to the U.S. Census Bureau.

National Economy Campaign

Public Demand For Lower Taxation Reaching From Atlantic to Pacific

Several days ago a movement commenced in Regina which will probably be Dominion-wide in its effect. Representatives of all classes from important parts of the prairie provinces met in conference to devise ways and means of creating an organized public demand upon the governments of this country for an immediate curtailment of wasteful government expenditures. As a result similar conferences will be held in Eastern Canada and British Columbia, and it is hoped that within the next few weeks the whole country will unite in demanding to all governments that they should public will not stand for a continuation for the ever increasing additions to our tax burdens. A National Economy Campaign will be commenced on February 15th, and last until February 28th, and during that period a general protest will be made through the pulpit, press and platform, against the present tax burden. Governments are very considerate of organized public opinion and it would seem that the best way is to convince them that the time for lower taxation is long overdue to demonstrate to them that the people as a whole will back them in any effort they may make to reduce government expenditures.

Corns Between the Toes Painlessly Removed

A real sure, dependable remedy that has been lifting out corns for the past fifty years will surely lift yours out. Putnam's Corn Extractor is the old reliable corn remedy—it stands the test of time and never fails, 25¢ every where.

To Scale Mountain

Thinks Will Reach Summit of Mount Everest This Year

The summit of Mount Everest will probably be reached this year, in the opinion of Dr. T. G. Longstaff, a member of the last expedition. "It all depends on the weather," he told an interviewer. "If the climbing party reach the same altitude they did last time (27,000 feet) before the eve of the blizzard season, they should successfully accomplish the feat 2,000, but at that altitude a blizzard would just about kill you."

ALMOST HELPLESS AFTER INFLUENZA

Left Weak, Nervous and Broken Down—Health Regained

"A few years ago," says Miss Frances Hanks, of Chicago, "my husband, Mr. Walter Hanks, was stricken with influenza which was then epidemic, and for a week he lay in bed almost helpless. She appeared to get over the prominent symptoms of the trouble but did not regain her health. Several weeks later her weakness developed into sinking spells in which she would faint and be unconscious. Her husband, who was a doctor, tried to treat her with medical aid these spells continued and she was constantly growing weaker, until she was taken to the hospital. Her lips and gums were colorless, she was nervous, and suffered from indigestion and palpitation of the heart. At this stage a friend of mother's, who lived at a distance, called to see her. He strongly advised her to try Dr. Williams' Pink Pills, which, she said, had greatly helped her in a critical illness. We took these pills and mother began to get these pills and mother began to get them. The improvement was slow at first, but we could see that the sinking spells were growing less frequent, and that strength was returning. The treatment with Dr. Williams' Pink Pills was continued, and day by day health and strength returned, until she was again able to go out, and help with the work of the household. The improvement this medicine made in her case was simply remarkable."

"I may also say," adds Miss Hanks, "that in my own case these pills were of the greatest benefit. Last winter I was in a badly run-down condition, and very nervous. My appetite failed and I had no color. Knowing what Dr. Williams' Pink Pills had done for mother, I began taking them with the result that they soon made me as strong and full of vigor as the other girls of my age. I may just add that I think we owe much of our good health to the pills and I hope your experience will be of benefit to some other sufferers."

You can get these pills from any medicine dealer or by mail at 50¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Curb Border Thievery

Agreement Intended to curb thievery along the Canadian border has been made between the Canadian and United States Governments. Under it the two governments agree to return stolen property smuggled by citizens across the border to their proper owners, either in the United States or Canada.

A wise woman shows discretion in the selection of things to be left unsaid.

There's nothing a man can be such a liar about as telling his son how different boys were in his time.

Ask for Minard's and take no other.

W. N. U. 151

Constipated Dyspeptic, Bilious

Strong purgatives have killed many a good man. Costiveness is bad—violent cathartics are worse. If bothered with stomach trouble or biliousness, use Dr. Hamilton's Pills. They are so mild you can scarcely feel their action, yet so effective that the entire system is cleansed of wastes.

Dr. Hamilton's Pills

Dr. Hamilton's Pills move the bowels gently, they tone the kidneys, assist digestion, clear the skin. For those subject to colds, biliousness, headache, there is no better medicine. Dr. Hamilton's Pills, 25¢ per box, 50¢ for \$1.00, all dealers, or The Catarrh House Co., Montreal.

A Message to Women

Ask Women of World to Get Behind Labor Body of League

An unique leader has just been issued by the International Labor Body of the League of Nations as "a message to women," signed by all eight women members of the British House of Commons. It declares that evidence of the non-partisan character of the International labor organization is contained in the fact that the call to support its work was endorsed by members of all three political parties in Great Britain. The message says: "The International Labor Organization of the League has given strong impetus to a realization of many of the aspirations of the women's movement, and it should be actively supported by the women of all countries and all classes."

The signatories were: Miss Astor, Katherine Althol, Margaret Bondfield, Dorothy Wootton, Susan Lawrence, Mabel Philipson, Vera Torington and Margaret Wittingham.

Canadian and U.S. Debt

Canada is Heaviest Taxed of English-Speaking Nations

Apologists for governmental extravagance in Canada tell us that our per capita debt is much lower than that of either the United States or Great Britain. The truth, however, is just the contrary. A statement of the entire gross debt of the United States, issued recently by its census department, places the combined gross debt of the Federal Government, states, counties, cities and all other civil divisions at \$23,786,000,000—or \$302 per head.

Now according to the latest available government statistics the gross debts of the Dominion, provincial and municipal governments in Canada total \$5,290,000,000—or \$599 per head.

The cold truth is that in both debt and taxation Canada is the worst off of the English-speaking countries. And what is still more disturbing while the other English-speaking countries keep on getting better, we keep on getting worse.

It Bids Pain Begone.—When neuralgia, rheumatism or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. When rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

He Didn't Play Rough

A 15-year-old English boy's football playing has won him a college education. A military officer, noticing his game in a recent game, is going to send him through Oxford when he has completed his preliminary schooling. "No boy could comport himself as he did," says the officer, "the makings of a gentleman," the officer declares. The lad, whose name is Walter Morley, is a son of a ballmaker.

Only the unformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

National Railways Revenue

In an official statement issued recently by Sir Henry Thornton, chairman and president, the net revenues of the Canadian National Railways for 1922 are placed at \$20,127,447, being an increase of \$17,646,935 in net revenue over 1922.

Don't let constipation poison your blood and curtail your energy. If your liver and bowels are clogged, you must take CARTER'S LIVER PILLS today and your trouble will be cured. For dizziness, lack of appetite, headache and blotchy skin nothing cures so fast. Small Pills—Small Doses—Small Price.

Greatest Treasure Box

Estimated That Twenty-Five Million Dollars Will Be Taken From Ontario Mines This Year

Hon. Charles McCrex, minister of mines for the province of Ontario, declared in a recent public address at Windsor, that Northern Ontario was the "country's greatest treasure box."

He estimated that the production of precious metals in Northern Ontario this year would total \$25,000,000 in value. Referring to the nickel industry, Mr. McCrex said that 85 per cent of the world's nickel supply was being taken out in the vicinity of Sudbury. There was an inexhaustible supply of this mineral. In 1911, when mining first began in Northern Ontario, \$48,000 worth of gold was taken out. Last year more than \$22,000,000 in gold was produced in the district.

Canada is now the greatest single contributor to the world's wheat supply with more surplus wheat for export than any other wheat growing nation, according to statistics compiled by the International Institute of Agriculture in Rome and transmitted to the Dominion Bureau of Statistics. British Columbia alone salmon pack this year will total 1,250,000 cases, according to preliminary estimates of the provincial Department of Fisheries. This is an increase of about 400,000 cases over the 1922 pack, and is the largest output since 1919.

NO MORE WEAK AND DIZZY SPELLS Since She Used MILBURN'S Heart and Nerve Pills

Miss Bertha Charlotte, Regina, Sask., writes:—"I have had a lot of trouble lately, with what I thought was a nervous ailment, and after many useless cures I always felt sick. My doctor advised a complete rest and change, but this I was unable to take."

I became interested in Milburn's Heart and Nerve Pills, so started taking them. I have now taken three boxes and am so much improved I can go about my daily work without feeling any more tired, and have not had any weak or dizzy spells for some time. My medicine has done more good than anything I have ever taken, and I will gladly recommend Milburn's Heart and Nerve Pills to any woman who is weak and run down."

Price 50¢ per box at all dealers, or money kept on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Changes in Dominion Lands Administration

Department of the Interior Effects Needed Economies by Consolidation

During the past few months the department operating in charge of the administration of Dominion lands in the three prairie provinces and the Railway Belt and Peace River Block of the province of British Columbia has been thoroughly overhauled with a view to providing satisfactory service at a minimum cost. Changing conditions have made it possible to reduce the number of land offices, the operation of the field staff has been simplified, and the number employed cut down by requiring all inspectors to undertake inspection work for all land divisions. In the past the Department of the Interior had home-stead inspectors, crown timber inspectors, grazing inspectors, and school and inspectors. Now there will be only one class of inspectors, namely Dominion land inspectors.

The changes made at head office in Ottawa will be of considerable interest to those who have land business to transact with the department. Up to the present time the land branches have been housed in several buildings in different parts of the city. However, they are now being concentrated in one building, the North Block on Wellington Street, opposite the West Block. The establishment of this one office for the transaction of all Dominion lands business should prove a great convenience to those who have federal lands business to transact and, of course, the advantage from an administrative standpoint are obvious. At the same time it is confidently expected that a material reduction in staff can be effected as the amalgamation of related services progresses.

Virtue is its own reward—and too often its only one.

Canadian Explorer Will Go North

Capt. Bernier Will Sail For Arctic From Portsmouth

Canada is to provide competition to the United States polar expedition by the dirigible Shenandoah next summer, but it will be by water. Captain Bernier, noted Arctic explorer, has left for England, where he is to take charge of the steamer Franklin, acquired by the Federal Government. Captain Bernier will sail for the Arctic direct from Portsmouth.

It is understood that a number of new posts will be established on the northern islands, and it has even been said that the Dominion Government is considering the advisability of sending a number of special representatives north next summer to take formal charge of the islands already discovered, thereby eliminating the possibility of the titles reverting to a foreign power.

The smaller the town the more important its leading citizen considers himself.

Cause of Early Old Age

The celebrated Dr. Michael, an authority on early old age, says that it is "Caused by poisons generated in the intestine." When these poisons are absorbed into the blood, they cause the early old age, and premature death. It is a drop of "Bile's Syrup" after meals, which cleanses the system.

Local and General Items

Tuesday next, February the 19th, will mark the fifty-year milestone in the annals of Pythianism.

Perfecting civilization is just a slow business of teaching husbands how to act before company.

Bob Duggan, an old timer of this district, dropped into town on Saturday last to renew old acquaintances.

Mr. and Mrs. Zettie, of the Bellevue Inn, were visitors to Calgary over the week end, returning home Monday afternoon.

Chief Spence returned from Calgary on Monday, having been in consultation with Dr. Gunn, eye, ear, and nose specialist.

Miss Telena Thibodeau desires to thank most sincerely her many friends for the "shower" of Tuesday night.

The Fernie senior hockey team won the championship of the East Kootenay by defeating Kimberly on February 8th, and are now in line for the Allan Cup series.

In connection with next Monday's hockey game at Bellevue, a special train will run, leaving Coleman at 7 p.m., Blairmore at 7:10 and Frank at 7:15. Return trip will be made immediately after the game.

A local party was found by the A. P. P. to be in possession of over-strength beer and on Monday paid into court the sum of \$200 and costs. Rumor has it that the information came from a real large-scale blimp-pigger, who somehow or other is less interfered with.

A meeting of shareholders and directors of the Blairmore Coal Co. was held this week, when affairs were settled up to date, and plans for future development of the company's properties were considered. In all probability, development work will start early this spring.

The Pictou Advocate of the 1st February states: "Mr. R. C. Primrose, of Edmonton, Alberta, arrived in Pictou a week ago, to visit his mother, Mrs. Alex. Primrose, who is seriously ill. Mr. Primrose was formerly an inspector with the North West Mounted Police, but for a number of years has been police magistrate of Edmonton."

The hockey league game at Coleman Crystal Rink on Friday night last drew a small crowd of spectators. At the commencement of the game the ice was rather soft, but towards the second period had hardened up considerably and a pretty good game resulted. Bellevue scored one in the first period. Coleman tallied and Bellevue countered in the second and the game concluded in Bellevue's favor by 3 to 2. Tommy Clark referred a good game.

A rather good story is told of a Scotchman, who with his wife undertook a trip by airplane. Both being of a nervous disposition, the driver cautioned them against making any noise or excitement and threatened to charge the Scotchman 40 cents extra if he made a murmur during the trip. Reaching their destination the Scotchman asked the driver if he was yet free to speak and was informed "Certainly." "Well," he said "the missus dropped out about a half an hour ago, but I didn't want to lose 40 cents."

FOR WREATHS, Sprays, Wedding Bouquets and Fresh Cut Flowers, Phone 96—M. Joyce.

"One of the worst dust storms in years was experienced over Southern Alberta's prairies on Monday."

Eve did not resort to make-up. You see, the man was her's the first time she saw him.

Miss Blanche Hilling has secured a position as stenographer with Mr. Dinning, the new liquor commissioner at Lethbridge.

Bob Gray says that pretty soon there'll be no freight charges on Blue Goose oranges. They'll be growin' 'em in the Crows' Nest Pass.

The marriage of Prince Erik, of Denmark, and Miss Lois Francis Booth, of Ottawa, took place at Ottawa on Monday afternoon.

Born, at Mrs. Kidd's maternity home, this morning, to Mr. and Mrs. McMahon, of Greencourt, Alberta, a daughter.

Nature knows her business. She gives most of the children to people who know nothing about scientific methods of raising children.

W. C. Bryan, commissioner of the A. P. Police, was down from Edmonton on Friday last on official business.

Little Ikey—Fader, vot ish "untoldt vealth?"

Old Swindlebaum—Dot vitch ter tax assessor don't findt oudt apoudt, mein sohn. Philadelphia Inquirer.

Rev. E. S. Bishop, for the past couple of years commissioner under the Alberta Liquor Act, has received a call to the Metropolitan Methodist church, Edmonton, which it is understood he has accepted.

We understand that Rev. Thomas Powell has been secured as special speaker for the anniversary services at the local Union church on Sunday, March 23rd. Mr. Powell will deliver his new lecture "Success and How to Attain It" on the Monday night following.

As we were dancing the clog at the club masquerade at the Greenhill Grill on Tuesday night, our feet got tangled with one of the beautiful light chandeliers and our bloomers ripped from heels to hip. We were glad, however, on recovering consciousness, to find that the happy gathering had dispersed.

At a meeting of women held in a Blairmore parlor yesterday afternoon, it was decided to invite curlers who have much time at their disposal, owing to the mild weather, to bring their brooms into commission assisting their wives and daughters at spring cleaning. It's a splendid opportunity to teach the men a few lessons, although rather early to start spring cleaning.

Mr. Homer Keith, district road engineer, accompanied by Mr. Buchanan, visited the site of the proposed new road over the Frank Slide on Saturday. We understand a rock crusher will be dispatched to the scene at once and that the work of building the road will start in the course of another week. Work will also begin shortly on the bluff road at Coleman, tenders for which are now being invited.

WHY YOUR TROUSERS

should be made by us to measure. Ill-fitting trousers spoil the entire effect of a suit no matter whether the coat and vest fit all right. Besides, there's your comfort to consider. Waist too tight or too loose, seat the same, pinching crotch, ungainly legs, awkward draping give you a sorry appearance. Try us on your next trousers and see the vast difference tailoring makes.

J. E. UPTON.

Tailor to The People of The Crows' Nest Pass

Phone 85

Blairmore

Rev. Dr. Chown, superintendent of the Methodist Church in Canada, Newfoundland and Bermuda, officiated at the Wesley Church anniversary services at Lethbridge on Sunday last.

It appears that the Lethbridge Herald is weak on the geography of the Pass, as in a recent news item, it ranks Coleman as a suburb of Blairmore. What next from this source, we wonder.

More than two million persons in Germany will be completely dependent on outside charity during the latter part of March and early April this year, according to reports made by the American committee for relief of German children.

Bellevue scored a victory over Coleman in a hard-fought hockey battle at the latter's arena on Friday night last. The game was void of fights and only two penalties were meted out by Referee Clark. The score stood 3 to 2. A very small turnout of spectators witnessed the game.

Rumor has it that the old Queen's hotel at Macleod is to be torn down or removed, to give place to a larger and more modern structure. It is also reported that the old Grand Union hotel at Coleman is to be torn down and that Calgary capital will erect a large and up-to-date hotel on the same site.

We noticed the other day in one of the newspapers, that the wardens in a certain prison were objecting to the task of whipping the prisoners sentenced to the lash, and demanding that there be a creature appointed by the government for this purpose. If such be the case, and such a creature is to be appointed, there is a misfit in Blairmore who would fill the bill admirably. Needless to say he is not a white man, although he deludes himself that he is.

It is reported that the Rothermers interests of England, which recently acquired a large block of timber land in the Manicouagan River Basin, have headed a syndicate which will spend \$16,000,000 in erecting pulp and newspaper manufacturing plants near Quebec city. With this news comes the announcement that the St. Regis Paper Company will build a \$4,000,000 plant near the parish of St. Augustine, a suburb of Quebec.

Records compiled by the Bureau of Railway Statistics in Chicago show how greatly the cost of rail road equipment in North America has increased in the past sixteen years. Since 1907, these figures show, the cost of heavy freight locomotives has risen from \$12,243 to \$33,550 each; passenger locomotives from \$16,057 to \$46,300 each; passenger coaches from \$7,350 to \$25,900 each; freight cars from \$700 to \$2,301 each; and steel rails from \$25 to \$45 per ton.

The Indians of the three prairie provinces in the 1923 season harvested the greatest crop in their history, according to the annual report of the Department of Indian Affairs. In the three provinces, the Indians harvested 688,501 bushels of wheat, 574,233 bushels of oats and 48,344 bushels of barley. The report shows they raised 58,554 bushels of potatoes and 10,000 bushels of other vegetables. They consumed 20,000 acres of land, broke 6,888 acres, put up 87,000 tons of hay and 5,516 of green feed.
